Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office Action is in response to applicant's amendment filed on May 3, 2004.
2. This application is in condition for allowance except for the following formal matters:

Amendment:

- Claim 48 was amended, however, the status of the claim, according to the amendment (Page 10 Line 1), say that is as presented originally.

Drawings:

- The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the long barb extending or reaching the lower side of the flat head and at the same time the short barb reaching lower than the long barb, as claimed in Claim 47 Lines 13-21 and in Claim 48 Lines 14-22, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the

Art Unit: 3676

remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The examiner approved the drawings filed on May 3, 2004.
4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

5. **Claims 47-66 are allowed.**

Reasons For Allowance

6. The following is an examiner's statement of reasons for allowance:

Claims 47 and 48 are allowable over the prior art of record because the teachings of the references taken as a whole do not teach or render obvious the combination set forth, including that the fastener further includes a long and a short barb wherein the long barb extending or reaching the lower side of the flat head and at the same time the short barb reaching lower than the long barb.

Giannuzzi (US 5,447,005) fails to disclose that the barbs (15 and 17) are different in length. Giannuzzi discloses that the barbs are equal in length.

Art Unit: 3676

Wenzlick teaches the different in length, but not in the barbs. Wenzlick discloses that the legs are the ones with different length.

Adell (US 3,382,615) discloses the different in length in barbs (21 and 22). However, it would not be obvious to combine the teachings of Adell into a device as described by Giannuzzi, because the fastener described by Adell works differently from the one of Giannuzzi.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
